**Making Mountains New York City**  
For over two hundred years, the Catskill Mountains have been repeatedly and dramatically transformed by New York City. In Making Mountains, David Stradling shows the transformation of the Catskills landscape as a collaborative process, one in which local and urban hands, capital, and ideas have come together to reshape the mountains and the communities therein. This collaboration has had environmental, economic, and cultural consequences.

**Making Mountains: New York City and the Catskills on JSTOR**  
Central to this process is the development of roads, and especially of the New York Thruway, which was built in the 1950s, bringing the City closer to the mountains. The possibility that the Catskills may lose their distinctiveness and become a suburb of New York City appears as a central concern.

**Making mountains : New York City and the Catskills (eBook ...**  
The Catskills may be the most overstudied rural region in the United States, featuring shelves of books on topics ranging from landscape aesthetics to ethnic resorts. What sets David Stradling's Making Mountains apart from other works is that he approaches the region from two perspectives—environmental history and tourism studies.
