Suicide An Unnecessary Death

The upside is that it's not a gory death. It WILL be painful, but mostly just puking and possibly shitting all over yourself. And your chances of survival are much greater than a shotgun suicide (to say the least). Your chances of survival depend upon whether your roommates find you soon enough.

How to Commit Suicide the Right Way | Points in Case

Taking unnecessary risks as if they have a "death wish". Sudden sense of calm A sudden sense of calm and happiness after being extremely depressed can mean that the person has made a decision to commit suicide.

Suicide Warning Signs | U.S. Customs and Border Protection

Suicide is among the leading causes of death in the United States. Based on recent nationwide surveys, suicide in some populations is on the rise. Suicide is defined as death caused by self-directed injurious behavior with intent to die as a result of the behavior. A suicide attempt is a non-fatal, self-directed, potentially injurious behavior with intent to die as a result of the behavior.
